

STAINLESS STEEL OUTDOOR SHOWERS **Wall-Mounted & Post-Mounted Showers**

Material Description

The Wall-Mounted or Post-Mounted Outdoor Shower consists of Type 304 Stainless Steel Construction with a matte finish design that is Rust-Proof and Resistant to harsh environments.

Four (4) mounting brackets are welded to the body of each unit for quick, easy installation and stability to either a post or a wall.

Valves and Shower Heads

All Wall-Mounted and Post-Mounted Outdoor Shower valves are solid brass with heavy chrome plating. The standard valve is a cross handle star configuration valve. For Commercial and Public Facilities that require ADA (Americans with Disabilities Act) standards, an ADA compliant metered valve is available. ADA Valves are Push-Button Activated and Slow Closing. Shower sprays water for 12 to 30 Seconds, Then Shuts off Automatically.

The shower head and hose bib are constructed of solid brass with heavy chrome plating. The water supply inlet located at the bottom of the unit is a standard 1/2" female pipe thread. The hose bib is standard 1/2" with vacuum breaker.
